Subject: Miami Seaquarium Whale Bowl Case No. 20210211387

EMAIL RECEIVED FROM EXTERNAL SOURCE

Good evening Mr. Errickson,

As you are aware, we represent the MS Leisure Company, the owner and operator of the Miami Seaquarium, in various matters including Unsafe Structures Case No. 20210211387 regarding the Whale Bowl facility/structure. At its last meeting, the Unsafe Structures Board (the "Board") issued an order requiring a building permit to be applied for to construct at least two protected means of egress from certain work areas of the Whale Bowl structure within 30 days of the date of the hearing, Friday, October 21, 2022 (the "Order"). The Seaquarium engaged engineers to prepare the required permit drawings for the application and it was preparing to have the application filed this afternoon.

Unfortunately, in the process of trying to submit the application for permit, our client encountered several technical problems and then, towards the end of the day, the people who were needed to file were no longer available. Regardless of the basis for not filing the permit application today, today is the Board's deadline which the Seaquarium cannot comply with. This being the case, MS Leisure Company, through undersigned counsel, respectfully requests the Board grant it a 30 day extension to submit the building permit application required by the Board's order.

Respectfully submitted,

Robert

Robert S. Fine, Esq., AIA
